*"The Lyreco project demanded a reliable turnkey installation that would be fit for purpose for years to come. To achieve this aim, we needed a module manufacturer renowned for innovation, quality, sophistication and durability which led us to partner with Trina Solar."*

James P. Marshall  
E.E.

As a result of a long-term partnership with Trina Solar, Lyreco has installed a 3.811 MW PV system at its distribution centre in Walsley, UK. The system consists of 13,860 Trina Solar TSM-DC05A.08 H M 275W modules.

The system is a 5-year warranty, 17,000 hours of operation, 53,000 hours of operation. The system is a 5-year warranty, 17,000 hours of operation, 53,000 hours of operation.
